Dr. Beckwith's letter.

CAUTION to those who purchase or take BECK-WITH'S anti-dyspeptic pills.

I have satisfactory evidence that Beckwith's pills have been extensively counterfeited in various parts of the country, and particularly at New York, and sold at prices much below what the genuine article can be afforded at.

Since the agency of Mr. Henry D. Turner, John street, New York, ceased, on the 14th February, 1844, I have appointed no agents, and now have none in any section, except Dr. T. W. Dyott & Sons, of the Columbian College, Philadelphia. Those, therefore, who wish to purchase or take the genuine pills, must obtain them either of myself, or of those gentlemen, or of persons known to purchase them of one or the other. Dr. Dyott & Sons are enabled by me to sell upon the same terms as I do myself.

June 5 Public notice. Public notice.

It will be seen by Dr. John Beckwith's letter, dated June 1st, 1845, that he has discontinued all agencies on commission for the sale of his (Beckwith's) anti-dyspeptic pills, and has established one principal office, which is at the Columbian College, No. 132 North Second street, Philadelphia, where the public are recommended to apply for the genuine pills.

Protection against counterfeits.

Dr. Beckwith, proprietor of "Beckwith's antidyspeptic pills," having suffered great loss, as well as those who have been in the practice of using his pills being disappointed and their health injured:

It will be seen by Dr. Beckwith's letter of June 1, 1845, that he has adopted the only safe plan for himself and the public against these miscreants, by having placed the sale of his medicine in the hands of one special agent, where every one who wishes to be supplied with the genuine article must apply.

Dr. T. W. Dyott & Sons, of the Columbian College, No. 132 North Second street, Philadelphia, are the only persons appointed to supply the above pills in quantity, as no counterfeit article is permitted in their establishment. Dealers and the public will be safe in supplying themselves as above.

ion.

Mr. P. A. Dickins is known to most of those
who have been in Congress within the last few
years, er who have occupied any public station at
Washington wright's Indian regetable pills counterfeited.

The proprietor of Wright's Indian vegetable pills has discovered that his pills are counterfeited and extensively circulated through the country by persons unauthorized by him.

Dealers in the above pills are therefore respectfully informed that Dr. T. W. Dyott & Sons, of the Columbian College, No. 132 North Second strest, Philadelphia, are the only persons authorized by me to sell my pills, in quantity, at the same prices as myself.

Any other persons travelling through the country effering my pills in quantity, and at reduced prices, are assuredly base counterfeiters, and ought to be rejected as such by every "honest dealer," and it is to be hoped will be, if it is only for the health and the lives of the public.

PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphia;
Hon. Ellis Lewis, of Lancaster; and Wilson McCandless, esq., of Pittsburgh.
This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Under the plea of right, acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as sast as they emanate from the London market. Should new editions of the works of such writers as Stankie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphis—shall have a place in the proposed new one, together with every new valuable English treatise on chancery or common law.

new valuable English treatise on chancery memory have been of 160 pages, printed on fine white paper, and good new long primer type, at seven dollars per annum, payable half yearly.

ISAAC G. M'KINLEY,

J. M. G. LESCURE.

ELIXER OF CALISAYA BARK.

This preparation is particularly recommended to persons of weak habit, and to such as reside in low situations, where the nervous system is, in general, more or less relaxed. The addition of certain ingredients has so completely disguised the taste of the bark, as to render this efficacious remedy, a most palatable cordial; thus peculiarly adapting it to conquer that repugnance which most persons experience after taking for some time bitter potions, as it combines the greatest efficacy with a highly agreeable flavor. As a preventive of the ague it has superseded the use of all other remedies, in such parts of the country as it is known. Prepared only by J. Milhau, No. 183 Broadway, New York. Price \$\frac{2}{3}\$ per quart bottle.

Sole agenta for the above, T. W. Dyott & Sons, No. 132 North 2d street, Philadelphia.

July 16—tf July 16-tf DR. DYOTT'S ANTI-BILIOUS PILLS

DR. DYOTT'S ANTI-BILIOUS PILLS.

As a family medicine, a mild and gentle purgalive, and purifier of the blood. The general use of these polebrated pills throughout the United States for these forty years past, and the strong recommendations they have acquired from all classes of our fellow-citizens, places them in a much more elevated situation in public estimation, than any to other remedy which has heretofore been introduced. The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bile from the stomach, they prevent and cure the bilious fever; chills, or ague and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all impurities, they restore the loss of appetite, remove flatulency, cure the headache, habitual costiveness, colds, coughs, asthma, epileptic fits, hypochondria, hysterical complaints, stranguary, gravel, &c.

By a general and copious use, they will be found very beneficial in carring the rheumatism and gout, lumbago or pains in the block.

All impurities in the blood yield to their happy of effects, whether proceeding from constitutional ailment, or from indiscreet intemperance.

These celebrated sills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitts, liver complaint, &c.

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their adments obstructions which are the source of their adments. S a family medicine, a mild and gentle purga-tive, and purifier of the blood. The general

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their ailments, at certain periods; they possess the eminent advantage over most other purgatives, that, while they come the constructions which are the source of their ailments, at certain periods; they possess the eminent advantage over most other purgatives, that, while they so operate gently, they produce neither cossiveness, debility, or too great excitement.

Whenever there is a predisposition to receive disease from marsh effavas, or from a too copious use of ardent apirity, or from a visitated state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sea or land, and may be made use of with safety without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to hot climates; they deterge and cleanse viscid humors, open obstructions, and promote the secretion of good bile, operate as an easy cathartic, as a powerful diuretic, and as a disphoretic.

Dr. Dyott, under the strong conviction of the power of his pills to relieve the afflicted, recommends the use of them to those who are in health as well as the afflicted, at leace once a fortnight, during the spring and summer months, in which he feels assured those who attend to his advice will find the benefit they seek.
